DETAILED ACTION

1. In response to the Office action dated June 27, 2005 the Amendment has been received September 29, 2005.

Claims 1, 2, 6 and 7 have been amended.

Claims 1-9 are currently pending in this application

Allowable Subject Matter

2. Claims 1-9 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claims 1-6 are allowed because prior art fails to teach or make obvious a C-arm x-ray device, comprising: a non-isocentric C-arm on which an x-ray source is positioned and that can be orbitally rotated, wherein, for an orbital rotation alone, there is no common isocenter point through which a central x-ray beam passes while rotating; the C-arm x-ray device comprising: a horizontal adjustment device and a vertical adjustment device being configured such that they can automatically move the central x-ray beam of the x-ray source back into a common isocenter, given an orbital rotation of the C-arm as claimed in combination with all elements of claim 1. Claims 2-6 are allowable by virtue of their dependence.

Claims 7-9 are allowed because prior art fails to teach or make obvious a method for operating a 3-D C-arm x-ray device, comprising: providing a non-egocentric C-arm

on the x-ray device, wherein for an orbital rotation alone, there is no common isocenter point through which a central x-ray beam of an x-ray source passes while rotating; and orbitally rotating the C-arm during an examination of the x-ray source and simultaneously adjusting at least one of a horizontal adjustment and a vertical adjustment device of the C-arm so that the x-ray beam is moved to or stays at the isocenter as claimed in combination with all elements of claim 7. Claims 8 and 9 are allowable by virtue of their dependence.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Irakli Kiknadze whose telephone number is 571-272-2493. The examiner can normally be reached on 9:00-5:30.
